Nittany Science Camp for Girls

I appreciate the opportunity to request additional support from MRSEC for Nittany Science Camp for Girls. External financial support allows us to keep the cost low, the quality high and extend 12 scholarships to girls who otherwise would not be able to attend the camp.

The total $3000 grant will allow 12 girls to experience science and engineering hands-on as well as impact all the girls in attendance by supporting the classroom which is utilized each day. The grant of MRSEC will be matched by the contributions of private gifts by Dr. John Vorberger and Tomoki Oman, which total $3500.

Thank you,

Cyndi Freeman Fail

If you plant for a year, plant a seed. If you plant for 10 years, plant a tree. If for 100 years, teach the people. When you sow a seed once, you will reap a single harvest. When you teach people, you will reap 100 harvests.” Kuan Chang
